Administration of Medicines Policy

1.1 Scope

This policy applies to staff, parents, students and the Board of Management of the school.

1.2 Rationale

The policy as outlined was put in place to;

- a) Clarify areas of responsibility;
- b) To give clear guidance about situations where it is not appropriate to administer medicines;
- c) To indicate the limitations to any requirements which may be notified to teachers and school staff.

1.3 Links to School Ethos

The school promotes positive home-school contacts, not only in relation to the welfare of children, but in relation to all aspects of school life. This policy is in keeping with the school ethos through the provision of a safe, secure and caring school environment.

1.4 Context

This policy should be read in conjunction with the School Health and Safety Statement, the Health and Safety Statement, the Special Educational Needs Policy, the Wellbeing Policy, the Code of Behaviour and the School Tour Policy.

1.5 Aims of this Policy

The aims and objectives of the policy can be summarised as follows;

- a) Minimise health risks to children and staff on the school premises;
- b) Provide a framework within which medicines may be administered in cases of emergency or in instances where regularised administration has been agreed with Parents/Guardians.

2. In-School Procedures

Parents/Guardians are required to complete a section on Health/Medication in the application form when enrolling their child/children in the school. No teacher is obliged to administer medicine or drugs to a pupil and any teacher willing to do so works under the controlled guidelines outlined below.

- a) Prescribed medicines will only be administered after Parents/Guardians of the pupil concerned have written to the Board of Management requesting the Board to authorise a member of the teaching staff to do so. Under no circumstance will non-prescribed medicines be either stored or administered in the school.
- b) In general, medicines will be administered by the Parents/Guardians outside of school hours;
- c) The school generally advocates the self administration (e.g. inhalers) of medicine under the supervision of a responsible adult, exercising the standard of care of a prudent Parent. No non-prescribed medicines are stored on the school premises. A small quantity of prescription drugs will be stored in the Administration Office if a child requires self-administering on a daily basis and parents have requested storage facilities. Parents/Guardians are responsible for the provision of medication and notification of change of dosage;
- d) Teachers have a professional duty to safeguard the health and safety of pupils, both when they are authorised to be on the school premises and when they are engaged in authorised school activities elsewhere;
- e) The Board of Management requests parents/guardians to ensure that the school be made aware in writing of any medical condition suffered by any child in their care.
- f) This does not imply a duty upon teachers personally to undertake the administration of medicines or drugs.

3. Long Term Health Problems

Where there are children with long-term health problems in school, proper and clearly understood arrangements for the administration of medicines must be made with the school. This is the responsibility of the Parents/Guardians. It would include measures such as self administration, administration under parental supervision or administration by school staff.

4. Life Threatening Condition

Where children are suffering from life threatening conditions, Parents/Guardians must clearly outline, in writing, what should be done in a particular emergency

situation, with particular reference to what may be a risk to the child (Appendix 3). If emergency medication is necessary, arrangements must be made with the school.

5. Guidelines for the Administration of Medicines

1. The Parents/Guardians of the pupil with special medical needs must inform the Principal in writing of the condition, giving all the necessary details of the condition. The request must also contain written instruction of the procedure to be followed in administering the medication. (Appendix 1, 2 or 3);
2. Parents/Guardians must write requesting the Board of Management to authorise the administration of the medication in school;
3. Where specific authorisation has been given by the Board of Management for the administration of medicine, the medicines must be brought to school by the parent/guardian/designated adult;
4. A written record of the date and time of administration must be kept by the person administering it (Appendix 4);
5. Parents/Guardians are responsible for ensuring that emergency medication is supplied to the school and replenished when necessary;
6. Emergency medication must have exact details of how it is to be administered.
7. The Board of Management must inform the school's insurers accordingly of medication for life threatening conditions;
8. All correspondence related to the above are kept in the school.

6. Medicines

- a) Where possible, the parents/guardians should arrange for the administration of prescribed medicines outside of school hours;
- b) Non-prescribed medicines will neither be stored nor administered to pupils in school;
- c) Teachers/SNAs in the school will only administer prescribed medication when arrangements have been put in place as outlined above;

- d) Arrangements for the storage of certain emergency medicines, which must be readily accessible at all times, must be made with the Principal;
- e) A Teacher/SNA must not administer any medication without the specific authorisation of the Board of Management;
- f) The prescribed medicine must be self-administered if possible, under the supervision of an authorised Teacher/SNA if not the parent;
- g) No Teacher/SNA can be required to administer medicine or drugs to a pupil;
- h) In an emergency situation, qualified medical assistance will be secured at the earliest opportunity and the parents contacted;
- i) It is not recommended that children keep medication in bags, coats, etc.;

7. Emergencies

In the event of an emergency, teachers should do no more than is necessary and appropriate to relieve extreme distress or prevent further and otherwise irreparable harm. Qualified medical treatment should be secured in emergencies at the earliest opportunity.

Where no qualified medical treatment is available, and circumstances warrant immediate medical attention, designated staff members may take a child into Accident and Emergency without delay. Parents/Guardians will be contacted simultaneously.

In addition, parents/guardians must ensure that teachers are made aware in writing of any medical condition which their child is suffering from. For example, children who are epileptics, diabetics etc. may have a seizure at any time and teachers must be made aware of symptoms in order to ensure that treatment may be given by appropriate persons.

Written details are required from the Parents/Guardians outlining the child's personal details, name of medication, prescribed dosage, whether the child is capable of self-administration and the circumstances under which the medication is to be given. Parents/Guardians should also outline clearly proper procedures for children who require medication for life threatening conditions.

The school maintains an up to date register of contact details of all Parents/Guardians including emergency numbers. This is updated in September of each new school year, or as is necessary.

8. First Aid Boxes

A full medical kit is taken when children are engaged in any out of school activities.

9. General Recommendations

We recommend that any child who shows signs of illness should be kept at home; requests from parents/guardians to keep their children in at lunch break are not encouraged.

10. Roles and Responsibilities

The Board of Management has overall responsibility for the implementation and monitoring of the school policy on Administration of Medication. The Principal is the day to day manager of routines contained in the policy with the assistance of all staff members.

11. Success Criteria

The effectiveness of the school policy in its present form is measured by the following criteria;

- a) Compliance with Health and Safety legislation;
- b) Maintaining a safe and caring environment for children;
- c) Feedback from all stakeholders;
- d) Ensuring the primary responsibility for administering remains with Parents/Guardians.

This policy was adopted by the Board of Management on October 15th, 2019.

It was reviewed on March 19th, 2024.

It will be reviewed annually, or as is necessary.

This policy is available to all stakeholders.

Appendix 1
Medical Condition and Administration of Medicines

Child's Name: _____

Address: _____

Date of Birth: _____

Emergency Contacts

1) Name: _____ Phone: _____

2) Name: _____ Phone: _____

3) Name: _____ Phone: _____

4) Name: _____ Phone: _____

Child's Doctor: _____ Phone: _____

Medical Condition:

Prescription Details:

Storage details:

Dosage required:

Is the child to be responsible for taking the prescription itself?

What Action is required

I/We request that the Board of Management authorise the taking of Prescription Medicine during the school day as it is absolutely necessary for the continued well being of my/our child. I/We understand that the school has no facilities for the safe storage of prescription medicines and that the prescribed amounts be brought in daily. I/We understand that we must inform the school/Teacher of any changes of medicine/dose in writing and that we must inform the Teacher each year of the

prescription/medical condition. I/We understand that no school personnel have any medical training and we indemnify the Board from any liability that may arise from the administration of the medication.
